EURUKO2008
European Ruby Conference | Prague, March 29th – 30th

European Ruby Conference (EURUKO 2008) is one of the largest Ruby conferences in Europe for Ruby professionals and enthusiasts. Last year there were about 80 attendees, we expect around 150–200 this year, making propagation better (RubyInside.com, Ruby/Rails blogs, mailing lists & other media). EURUKO is an excellent opportunity to get in touch with growing Ruby community in Europe and to endorse and help this wonderful language and surrounding ecosystem. There are many possibilities for sponsorship at EURUKO.
